M'FADDEN'S ROW OF FLATS. Farce comedy is the most popular form of theatrical entertainment, because, in addition to amusing the people and distitioning their attention from ordinars cases of the day, it gives them their very first chance to hear the newest and brightest humar of the hour, and the lates: song hits of the hour. Farce comedy, is electric and will rhow of constant changes, and the introduction of new and catchy material, and while the thread of the story is never broken, it is capable of being strengthened by the addition of the latest "stuff." There is a great rivalry among comedians and fraccurs to be the first to introduce something new, and the first to introduce something new, and the liberty allowed them by the management maures the public something fresh every day. "McFadden's Row of Flata." which will be presented at the opera house Monday and Tuesday, September 24 and 25, matinee Tuesday, is no exception to the rule. It is a rattling farce built on the rule. It is a rattling farce built on the rule. the lines that have pleased the most citi-cal audiences in all the large cities, and by the constant improvement by the addi-tion of the latest sayings, songs and dances, it improves at every performance.
